IMPORTANT NOTE

● MINIMUM SYSTEM REQUIREMENTS:

- ☐ Pentium IV® 1 GHz
- ☐ 512 Mb RAM - (*) 2 Gb RAM for Windows Vista Professional
- ☐ High resolution graphic board with 32 Mb RAM – (*) 256 Mb RAM for Windows Vista Professional
- ☐ Windows XP SP2 or Windows Vista Professional 32 bit (*)
- ☐ 3 buttons scroll-wheel mouse
- ☐ 512 Mb of available hard disk space - for ARC+ installation only
- ☐ A PDF reader.

● ARC+ 2ND EDITION PROTECTION:

ATTENTION! SENTINEL type dongles are no longer supported.
- Keys with serial number of 10 digits, starting with "200", e.g.: 20040617022, should be replaced.

You must have a HASP ALADDIN dongle in order to run ARC+ 2nd Edition.

- The serial number of an ALADDIN (HASP) key includes 5 digits, e.g.: 90333.

● ARC+ 2ND EDITION INSTALLATION:

NOTE: For installing ARC+ you must have Administrator rights!

Please install ARC+ 2nd Edition in a new folder only!

On Windows Vista – please avoid "Program Files" as destination for the ARC+ installation folder!

Remember to check the option "Desktop shortcut" during the installation of ARC+ 2nd Edition.
This shortcut, called "ARCPLUS", is linked to the new ARC+ Runner and replaces all previous ARC+, Progress, SETVERSION and SETREG shortcuts on your desktop!

- ☐ The new ARC+ Runner enables you to manage multiple versions of ARC+ and multiple settings.
- ☐ It offers the possibility to run different versions of ARC+, while protecting you from executing them simultaneously!
- ☐ When you install ARC+ 2nd Edition, the new version is automatically added to the list in the new ARC+ Runner, with the name of the installation folder and pre-defined paths.
  After the installation ends, you will be able to change the default paths defined for this version, and to add other older versions of ARC+, which you may wish to use later.
- ☐ Direct access to the management of these versions, is available through their contextual menu.

● TO UNINSTALL ARC+ 2ND EDITION:

- ☐ Use the new ARC+ Runner Manager to uninstall your ARC+ version directly from the contextual menu (right button of the mouse) on the list, or by either of the other available options:
- ☐ From the ARC+ 2nd Edition shortcut in Windows Start-up menu: "Uninstall ARC+ 2nd Edition".
- ☐ Or by running the program "UNINS000.EXE" in the main folder of ARC+ 2nd Edition.

● UPDATE YOUR SOFTWARE AUTOMATICALLY

We advise you to verify systematically if a new update for your ARC+ version is available online.

- ☐ The new ARC+ Update Manager enables you to make sure that your software is up-to-date, periodically. You can find it in the contextual menu of ARC+ 2nd Edition, in the new ARC+ Runner Manager, option: "Open ARC Update Manager"
- ☐ To update your software directly, you can use the ARC+ 2nd Edition shortcut in Windows Start-up menu - option "Update ARC+ 2nd Edition", or the contextual menu of ARC+ 2nd Edition in the new ARC+ Runner Manager - option "Run Update from Internet".

- When your version is up-to-date, the following message will be displayed:
"All of the files installed on your computer are currently up-to-date".
